Job Description

Internal Audit Specialist

Job Title:- Internal Audit Specialist

Job Details

Directory	Audit & Risk Committee	**Location**	Muscat, Ruwi,
Department	Internal Audit	**Direct Manager**	Manager of Internal Audit

Job Purpose

Operating from an independent, objective, and impartial oversight perspective in line with **GIAS** and **International Internal Audit Standards**, the Internal Audit Specialist performs specialized audits—financial, operational, IT, and compliance—across the organization. This role ensures the integrity, effectiveness, and efficiency of governance, risk management, and internal control systems, and supports continuous improvement and accountability in the Exchange's operations.

Key Responsibilities / Accountabilities

- Contribute to the development of the annual, risk-based audit plan and propose audits based on organizational risk profiles and stakeholder priorities.
- Assist in designing detailed audit programs that reflect audit objectives, scope, and GIAS/IIA standards.
- Conduct audits across all business units and support functions, including clearing, settlement, depository, trading, listing, inspection, compliance, IT, finance, HR, and strategy.
- Evaluate the design and operational effectiveness of internal controls, report control deficiencies, and recommend practical corrective actions.
- Assess the organization's adherence to laws, regulations, internal policies, and procedural manuals.
- Verify the accuracy and integrity of financial and operational records and ensure assets are safeguarded.
- Perform specialized audit procedures, including data analytics, system audits, and operational walkthroughs, as required.
- Participate in the follow-up of audit recommendations (internal and external) and track their implementation status.
- Identify, assess, and report emerging risks, and escalate critical issues to the department manager
- Contribute to the preparation of clear, concise, and objective audit reports, highlighting key findings and agreed-upon action plans.
- Maintain strict confidentiality, demonstrate integrity, and ensure full compliance with the GIAS Code of Ethics and the IIA Code of Ethics.
- Support the Internal Audit team with continuous professional development, awareness of evolving risks, and the enhancement of audit methodologies.
- Report risks and events occurring within the department to the Risk Department.
- Perform other tasks assigned by the department manager as necessary.

Job Requirements

Qualifications	Bachelor's degree in Accounting, Finance, Audit, or a related discipline Minimum 2 years of internal audit or risk management experience. Professional certification or part-qualification in CIA, CPA, ACCA, or related is preferred
Skills	• Knowledge of Internal Audit Standards (GIAS, IIA) and the ability to apply them in practice. • Strong grasp of internal control frameworks, compliance auditing, and risk assessment. • Competency in analytical and investigative techniques with attention to detail. • Report writing and communication skills, capable of preparing clear findings and recommendations. • Proficiency in data analysis tools, Microsoft Office, and audit software (preferred). • High level of professional integrity, objectivity, and confidentiality.
