Subject: Disclosure on the Impact of Recent US Tariff Increase

With reference to the recent communication received from MSX regarding the requirement for listed companies to disclose the impact of the US tariff increase, we would like to confirm the following:

We do not expect any material direct or indirect impact on the Bank's activities, investments, or operations.

We expect markets to be volatile particularly relating to equities and interest rate movements in the US and their potential influence on local equities and interest rates. Managing such risks forms an integral part of the bank's operations and risk management.

Saleh Mohammed Al Hadhrami
